Rule change vote to implement the modified RS700 Performance Compensation Setting

The RS700 International Committee proposes that the membership vote on whether the modified Performance Compensation that removes the lead and extends the compensation range should be permanently implemented. This requires an RS700 class rule change.

The current RS700 Class Association Rules are here:

<https://www.rs700.org/documents/p1f0tlc5qt2gf1v3a1hvnjapg3.pdf>

A rule change would be required at para 3 "Performance Compensation". The proposed new wording of Section 3 is here: <https://www.rs700.org/documents/p1fr4trbhbev1hd1o959g1mu03.pdf>

Read the conclusions drawn from the trial findings here:

So please vote:

YES to a rule change to permanently implement the 2021 Performance Compensation settings

Or NO to continue with the original settings
